

## THE LAST WEEK

*'It was now night'*

Saturday 23 March 11:00 in the Parish Centre

As Christ prepared to eat his last meal with his disciples, the sunset marked the beginning of more than just a natural darkness. The Light of the World was about to be extinguished. Night had fallen.

During Holy Week, when the Gospel accounts of the last week of Christ's life, passion and death are read, there is never enough time to look into all the details, scriptural references, and rich symbolic meaning contained in the text. This Lent, we are making time to do just that. Join us each week to explore the most important week in human history.
