

## THE LAST WEEK

### *'The hour has come'*

Saturday 30 March 11:00 in the Parish Centre

From the moment Judas left the Last Supper, Christ knew that he did not have much more time with his apostles. He only had time for his most important teachings. What did Christ choose to say?

During Holy Week, when the Gospel accounts of the last week of Christ's life, passion and death are read, there is never enough time to look into all the details, scriptural references, and rich symbolic meaning contained in the text. This Lent, we are making time to do just that. Join us each week to explore the most important week in human history.
